DHIRAJ ARUN KARANGALE

OBJECTIVE

As a C# developer, I designed and developed many 2D and 3D games. Having exposure to industrial internship in game development gained experience of closely working with other professionals. Willing to learn more and participate in real-world business projects.

INTERNSHIPS

Jr. Developer, Ezy Helper

(Aug2021-Sept2021)

- Worked on a project titled 3d puzzle action multiplayer game.
- Used unity and photon with C# to create this project from crash.

Game Developer Intern, Life of Cards

(Jan2022-July2022)

- Fixed bugs and improved the old app.
- Designed and developed the android game "<u>Idle Crypto Miner</u>≥" along with designing its database structure in Microsoft Playfab.
- It is a crypto mining game which gives user freedom to mine bitcoin and purchase NFT in game.
- Also allows user compare score in leaderboard with friends.

Game Developer Intern, Time to School

(July2022- Current)

- Help in designing and developing the mobile app.
- App helps children learn while playing games.
